## VIET BUDDHISTS LAUNCH GENERAL STRIKE

### 1964 Alumnus Named To DPU Administrative Post

A 24-year-old DePauw University alumnus has been named to fill a newly created administrative post at his alma mater. The appointment of John W. Owen as assistant in the office of planning and development was announced today by President William E. Kerstetter.

A 1964 graduate whose home formerly was Huntington, Ind., Owen will assume his duties at DePauw June 13.

Owen spent nine months in sales training after his graduation before entering the Indiana University graduate school last year. He expects to receive the M.A. degree at Indiana in radio and television later this year.

As an undergraduate who entered DePauw on a Swabian scholarship, Owen majored in history and achieved recognition for scholarship, leadership and activities through election to Gold Key.

He also was vice president of Phi Kappa Psi social fraternity, vice president and sports director of the campus radio station, and a member of Sigma Delta Chi, journalism society, and the Student Senate.

Owen's parents are Mr. and Mrs. Herbert T. Owen, 7 Circle Drive, Rolling Acres, Carmel, Ind.

### Tryouts Set For "Silk Stockings"

Appealing to the adult tastes of Putnam County, the Summer Theater will soon start production of the musical "Silk Stockings." Young adults and adults are urged to participate in the tryouts to be held June 11 and 12 at 2:00 p. m. in Speech Hall.

This is a comedy using six principals and many singing and dancing parts. Bring your own music.

Peter Hill of the Greencastle Schools faculty will be musical director. Robert Hughes, head of Ben Davis High School speech department, will be dramatic director.

"Silk Stockings" is scheduled for July 29-30, and August 5-6.

### Defense Blackout

WASHINGTON UPI — A main section of the nation's defense nerve center, the Pentagon, was blocked out for about half an hour Monday when a first floor transformer failed. About 10 per cent of the office building, the world's largest, was darkened.

### 20 Years Ago

Mr. and Mrs. Simpson Stoner were at Dunes State Park for the Elks state convention.

Sam Hanna, Danny Hanna, Virginia Walbring, Mary Mae Patterson and Norma Williams attended luncheon at the Columbia Club in Indianapolis sponsored by R.C.A. in honor of Spike Jones.

Captain Harold G. Crawley was here from Fort Lewis, Washington.

#### Moon Pictures Slowed Down

PASADENA, Calif. UPI — Scientists at the Jet Propulsion Laboratory here today slowed down the picture taking of Surveyor as temperatures on the moon rose to the 260 degree mark at lunar high noon.

However, JPL officials were optimistic that America's eye on the moon would survive the heat and continue to operate in the flawless manner it has since making its soft landing on the lunar surface last Wednesday.

Scientists said Monday Surveyor was performing so well they were hopeful it would survive beyond original estimates of two weeks.

Next Monday begins the lunar "night," during which temperatures will drop to about 250 degrees below zero.

It has been feared that the temperature extremes would either melt or freeze sensitive instruments on the 620-pound craft. But scientists said the solar panel, which converted heat rays into electricity, shielded Surveyor's cameras from the searing rays of the sun, and a "limited" picture-taking mission would be held early this morning.

Because storage batteries were operating flawlessly, they planned to shut off all instruments except a few heaters to warm vital components during the lunar night.

Scientists reported Surveyor had received and obeyed 50,000 separate commands since landing in the moon's Sea of Storms region.

JPL's Goldstone Tracking Station in California Majave Desert had received 887 additional photos from Surveyor in the fifth picture-taking session which ended Monday morning.

A total of 2,920 photographs had been transmitted before the sixth session began this morning. They included close-ups of the lunar surface and panoramic sweeps of the lunar horizon.

### Roudebush Hits Mail Service

WASHINGTON UPI — Rep. Richard L. Roudebush, R.-Ind., today sought specific complaints from the constituents about mail service in Eastern Indiana which the congressman said was slower than the pony express.

Roudebush said a survey showed it sometimes took first class mail seven days to reach Richmond from Indianapolis and five days to reach Richmond from Lynn, 13 miles away.

His request for an investigation of the mail service was turned down by Rep. Tom Murray, D-Tenn., chairman of the House Post Office and Civil Service Committee. Then the Post Office Department belittled his "documented complaint" on poor mail service, Roudebush said.

"Poor mail trains were blamed," he said. "The department also had the gall to suggest that business patrons in Richmond were responsible themselves because they made only one daily pickup from a postal box."

He said the department has assured him that service to Richmond will receive continuing attention.

"The pony express could beat this service," he said.

### South Putnam Board Gets Remonstrance

South Putnam School Corporation's board took a little over thirteen minutes last night to curtail the evening's activities after Kenneth Ames presented them with a petition signed by over 400 taxable property owners in remonstrance to two resolutions passed at an earlier meeting of the board. The resolutions pertained to the issuance of bonds for construction purposes of the new school building and for

consideration of the board for additional appropriations for construction.

The board failed to take any action on the matter at the regular meeting last night and president Frank Jarrell called the meeting adjourned seconds after the remonstrance was delivered.

Business taken care of before the petition was delivered included the passing of a resolution that dissolved two resolutions passed at the last regular meeting of the board. These resolutions are in effect (1) The resolution to offer for sale General Bonds in the amount of \$190,000 for the purpose of construction of a new high school and (2) the petition of additional appropriations in the amount of \$1,540.00 for the construction of a new high school.

The resolution was made after the corporation's lawyer advised the board that the legal notices applying to the two resolutions were not publicized as quickly as they had expected and that the petition signed by more than fifty taxable property owners for request of issuance of bonds was possibly signed with some misunderstanding by the signers.

Other business concerned the reading of the minutes of the past meeting and a brief outline of the corporation's summer recreation program by Superintendent Donald Hedrick.

About 750,000 of the 40 million Americans who paid taxes in 1965 received rebates from the federal government.

### Co. Board Meets

The Putnam County Planning Commission met last night and carefully read through the proposed zoning ordinance. Several changes were suggested.

Next will be the development of a zoning map which is a part of the ordinance. The County will have five categories for zoning purposes: Residential, Business, Industrial, Rural and Flood Plain.

### Kidnaper Search Centers In State

GREENSBURG UPI—A suspect sought in the kidnaping of a Tennessee couple was captured by State Police in a barn near here this morning and verbally admitted the crime, authorities said.

BATESVILLE UPI—Federal, state, county and local authorities centered their four-state search for a suspected kidnaper believed to be a Tennessee jail escapee in a wooded section near here early today.

FBI agents, state police troopers, sheriff's deputies and local police officers surrounded a wooded section of about 90 acres Monday evening in the hunt for a man suspected of abducting a Tennessee couple from their home.

They said evidence indicated the man may be Sammy Lee Harper, of Greenwood, Miss., and Chicago, who escaped last week from the Humphreys County, Tenn., jail where he was being held pending grand jury action on armed robbery and kidnaping charges.

Authorities said the search began Monday when Mr. and Mrs. Robert L. Lemmons, Concord, Tenn., were picked up by a Hamilton County, Ohio, sheriff's deputy.

They told the deputy they were abducted from their home Monday morning and forced to drive with the gunman through Tennessee, Kentucky and Ohio.

Lemmons told authorities the couple talked the man into letting them go near Harrison, Ohio, just east of the Indiana-Ohio border.

### City To Be Host

Thursday morning Greencastle will be host to a Section meeting of the Indiana Water Pollution Control Association of the Indiana State Board of Health. At 8:30 A.M. the group will tour Greencastle's enlarged sewage disposal plant, then adjourned to Windy Hill Country Club for a luncheon.

### AWARDED \$100 BOND

Pictured above from left to right are Jim Alexander, project chairman; Caroline Steinbaker, who was awarded a \$100 bond by the Greencastle Jaycees, and Dick Asbell, Jaycee president. A total of \$306 has been deposited in the Jaycees' Community Park Fund to initiate the organization's fund raising drive. Plans are nearing completion for construction of a dam and a 5-acre lake immediately north of the Greencastle Airport. Banner Photo—Steve Hurst.

### Police Report Local Accident

City police reported that a traffic accident occurred on South Jackson Street Monday morning during the heavy downpour of rain.

Vehicles involved were a 1965 Chevrolet driven by Rita Liechty, 22, Fillmore, and a 1959 International pick-up truck driven by David M. Fellows, 18, Reelsville, Route 2.

Police said visibility was poor resulting in the mishap 200 feet south of the Hanna Street intersection.

Officer John Vermillion reported that Rita Liechty suffered throat and leg bruises.

Damage was estimated at \$800 to the automobile and \$150 to the pickup truck.

### Satellite Will Study Radiation

CAPE KENNEDY UPI—A satellite resembling a giant dragonfly soared on a far-reaching orbital journey today to examine the seething radiation astronauts may encounter on trips to the moon.

The 1,135-pound satellite, named OGO for Orbiting Geophysical Observatory, is one of the largest scientific satellites ever launched by the United States. It carries 21 experiments—more than any other American spacecraft.

Besides poking into the radiation belts that encircle the globe, OGO was equipped to watch for great bursts of energy from the sun, examine space dust, and listen to eerie radio noises coming from deep space.

After OGO separated from its spent launcher, it unfolded its 20-foot wide solar panel "wings" and developed a weird assemblage of booms and antennas that give the satellite an over-all length of 49 feet.

### Illinois Picked For A-Smasher

SPRINGFIELD, Ill. UPI — State Sen. George E. Drach, R-Springfield, said Monday he had learned that the Atomic Energy Commission will build its multi-million-dollar atom smasher in Illinois.

Drach, chairman of the Illinois Commission on Atomic Energy, told a news conference his information came from reliable sources "which must remain undisclosed at this time."

Drach said he believed a special session of the legislature would be called a week or 10 days after the official announcement of the selection.

Gov. Otto Kerner, a Democrat, has said a special session would be necessary in the event an Illinois site was chosen to provide for land acquisition and other matters.

A proposed site for the giant facility near Weston, Ill., was one of several sites around the nation reported by the AEC as still under consideration.

"The Illinois site has all the advantages required by the commission and cooperating scientific agencies," Drach said.

Drach said he did not know when the official announcement would come.

"I don't know the exact date, he said.

SAIGON UPI — Militant Buddhists spurned the military government's offer to share power and launched a general strike which paralyzed the northern city of Hue today to back up demands for the ouster of Premier Nguyen Cao Ky and Chief of State Nguyen Van Thieu.

Commerce, schools, sidewalk vendors and even the Chinese restaurants which normally stay open even in the most critical times all closed on orders from the Buddhists' clandestine radio.

Police in Saigon, alerted for more street demonstrations promised by disgruntled leaders of the Buddhist National Institute, headed off a potential demonstration early today by arresting 30 youths at the funeral of a nun who burned herself to death.

Others in the entourage were allowed to proceed, however, after monks limited the procession to monks and nuns.

In Hue, the clandestine radio believed to be operating from the headquarters of fiery Buddhist leader Thich Tri Quang, charged that U.S.-backed government forces planned to massacre Buddhist clergy and the faithful. It warned listeners that if the radio went off the air it would mean Buddhist leaders were in serious danger.

The general strike was the most significant step yet in the Buddhists' announced "non-violent" campaign against the Saigon government. The only activity on the almost deserted streets were loyalist government troops who removed the religious altars dragged as symbols of protests into the street. At one point they lobbed tear gas at a group of Buddhists who attempted to block their way.

The troops also continued their campaign of disarming members of the rebel struggle force.

At Da Nang, Hue's sister city and a former rebel stronghold, some Buddhists also moved their altars into the streets to block government troop movements, but the response was not as good as in Hue.

Premier Ky announced Monday that the 10-man military junta would be expanded to 20 members and named civilian representatives of religious and political groups to the new seats.

### Lucky Sixes

INGLEWOOD, Calif. UPI — The James Maxwells of Torrance, Calif., had little doubt today of their lucky number—six.

Mrs. Maxwell gave birth to a baby girl Monday—the sixth day of the sixth month of 1966, at 6:06 a.m. The baby, as yet unnamed, weighed 6 pounds, 6 ounces.

Friends and relatives are invited.

## 2 Ex-Presidents Lunch Together

KANSAS CITY, Mo. UPI — America's only two living ex-presidents lunched together Monday and marked the 22nd anniversary of D-Day with a joint tribute to the United Nations.

Both looking fit, former Presidents Harry S. Truman and Dwight D. Eisenhower acted more amiable than their political backgrounds suggest.

Both spoke briefly at a luncheon at which "U. N. We Believe," a non-profit educational organization, presented its 1966 award to International Business Machines for that company's support of the United Nations.

Eisenhower, who commanded the invasion of Normandy, said "world understanding among nations is a vital necessity of our day."

Truman said the United Nations now is "not alone in the world" among organizations working for peace and international understanding.

## See Approval Of Legislation

WASHINGTON UPI — Approval for legislation authorizing the Indiana Dunes National Lakeshore today has been predicted by members of the House Interior Subcommittee.

Members of the subcommittee held an informal discussion of the proposed bill Monday when a quorum was not present to take any action.

Those who were there predicted a majority would be present today and that the legislation would be approved and sent to the full committee. They predicted approval by the committee as well.

The controversial legislation involves a 11,200-acre park on the southern tip of Lake Michigan.

## Anti-Poverty Grant

WASHINGTON UPI — A \$142,734 grant for three anti-poverty programs administered by the Vigo County, Ind., Opportunity Act Committee was announced Monday by the Office of Economic Opportunity.

The grant includes \$87,029 for a consumer education and family living program, \$34,301 for a one-year continuation of the Vigo Community Action Agency, and \$21,404 for a neighborhood coordinating service.

## Vandals Blamed

MICHIGAN CITY, UPI — Vandals were blamed for the disruption of service to more than 200 Indiana Bell Telephone Co. customers on the southeast side of the city Monday.

Company officials said service was restored between 8 and 9 p.m. after the cable was cut by vandals.

## Personal And Local News

Mrs. Georgia Sublette Is Hostess To Class

The Dorcas Class of the Putnamville Methodist Church met Tuesday evening, May 17, at the home of Mrs. Georgia Sublette.

The meeting opened with the group singing "Pass Me Not O Gentle Saviour," followed by the pledge to the Christian flag. For devotionals the hostess had selected an interesting article from "Guide Post." Answer to roll call continued the reading in Psalms; minutes were read and approved. Discussions were held during the business hour.

For the program Opal Jackson read from the material she had on the Apostle Philip. Birthday money and penny collection were taken.

The closing prayer was offered by Mayme McCullough, followed by the Misspall being followed by the members. Opal Scoobee conducted a contest with the prize going to Viola Parsons. Mayme McCullough held the lucky napkin.

The hostess served delicious refreshments to ten members and two guests, Miss Lisa Stringer and Mrs. Bernice Ridgeway.

## Cost Of Living Seen As Issue

INDIANAPOLIS UPI — Charles O. Hendricks, Republican state chairman, predicted Monday the biggest issue in this year's Indiana election campaign will be the high cost of living under President Johnson's Great Society.

"Not only people with fixed incomes, but young and older married folks are feeling the Johnson inflation when they go to the grocery store and pay money elsewhere," Hendricks said.

He attended a meeting of the GOP planning advisory committee, headed by Arch N. Bobbit, former GOP state chairman and one-time Indiana Supreme Court justice.

The committee has heard the views of 92 persons while preparing plans for the party platform to be presented at the state convention later this month.

Hendricks blamed the inflation on "wild spending of the Johnson administration."

He said other campaign issues would be taxation, citizen safety and Viet Nam.

"The confusion of President Johnson's Viet Nam policy also will be an important issue," he said. "Most people don't understand or believe all that they hear from government spokesmen."

Hendricks said Hoosiers are tired of paying both state income and sales taxes without any appreciable reduction in the property tax.

He said the prevention of attacks upon citizens on the streets would be an issue as would highway safety.

## Billy Graham Does Roadwork

LONDON UPI — Keeping a promise to stay fit during his religious crusade, evangelist Billy Graham spent 40 minutes jogging through a park near his hotel early today.

"I always enjoy a good run in the park," said the 47-year-old North Carolinian who was dressed in slacks, a dark shirt, windbreaker and track shoes.

He was accompanied by Curtis Mitchell of Westport, Conn., author of several books about Graham and also a physical fitness instructor. A pack of newsmen and photographers puffed along behind Graham during his mile and a half run.

Graham did his roadwork through rambling and tree-shaded Kensington Gardens Park. Before he began his crusade last week he promised to run two miles a day to keep fit. Today, however, was his first actual workout.

Graham Monday night rapped the younger generation as being so preoccupied with sex "that it oozes from all pores of life."

The North Carolina preacher told an audience at the fifth night of his greater London moral crusade that no one could really blame young people for being immoral.

It was the older generation that exposed youth to pornographic literature and patronized salacious films, he said in his address on "youth, sex and the Bible."

## In Memory

In memory of Lee McNeely, who passed away 2 years ago on June 7, 1964.

No, no the cold beneath the grasses

Not closed-walled with in the tomb,

Rather, in our Father's mansion,

Living, like the man who loved us,

Like a child with cheeks abloom, Out of sight our Father and Husband,

Busy in another room. Shall we doubt our father's mercy?

Shall we think of death as doom, Or the stepping o'er the threshold

To a bigger, brighter room? Shall we blame our Father's wisdom?

Shall we sit enshrouded in gloom, When we know our loved ones are happy,

Waiting in another room? Sadly missed by wife and son, Frank.

Meredith was shot as he strode briskly down U. S. Route 51 near this small town about 40 miles northwest of Oxford, where his admission to "Ole Miss" in 1962 sparked rioting that claimed two lives and injured hundreds of persons.

## Entertainer On World Flight

TOKYO UPI — Entertainer Arthur Godfrey and three co-captains left Chitose in central Hokkaido today on a 1,542-mile leg of their round-the-world flight.

The four, flying a twin-engine jet commander, were scheduled to touch down in Shemya in the Aleutian Islands before proceeding on to New York via Anchorage, Seattle, Los Angeles and Oklahoma City.

Co-captain Fred Austin, a TransWorld Airlines executive, said the flight "was going very well" and they should complete the globe-circling trip to New York with about 52 hours of flying time.

## Man's Shooting Ruled Suicide

CRAWFORDSVILLE UPI — William J. Craig, 29, Veederburg, devised a plan that involved having his estranged wife unwittingly kill him, authorities said today.

Craig fastened a high-powered rifle to the door of his car and parked it in the lot of a printing plant where his ex-wife worked. He fastened strips of cloth to the trigger and made sure that when the car door was opened the weapon would be discharged.

Mrs. Craig saw her former husband in the car, went to the parking lot and opened the door. The rifle discharged a bullet into Craig's chest, killing him outright.

Authorities ruled death was suicide.

## Parking Garage Built Too Low

FOR WAYNE UPI — City Engineer Lloyd S. Taylor confirmed Monday that a million-dollar parking garage in downtown Fort Wayne was built seven inches too low.

Taylor said 20 feet of the street will have to be ripped up and re-graded to confirm to the lower level of the curb and sidewalk.

"You simply can't tell them to tear a million dollar building down," he said. "We simply had to work something out."

The structure was built by Wilhelm Construction Co., Indianapolis. It will be a parking garage and a drive-in bank.

## Order New Trial For Dr. Sheppard

WASHINGTON UPI — The Supreme Court Monday ordered a new trial for Dr. Samuel H. Sheppard, socially prominent Cleveland osteopath, convicted in 1954 of murdering his wife, Marilyn.

Under the ruling, Cuyahoga County prosecutors must re-try Sheppard in 60 days or free him permanently. The 1954 conviction was for second-degree murder.

Sheppard served nine years of a life term when found guilty of the fatal bludgeoning of his pregnant young wife in the couple's fashionable Bay Village home on Lake Erie.

Sheppard, known in the headlines as "Dr. Sam," was ordered released by Federal District Judge Carl Weinman of Chicago on the grounds that trial and pre-trial publicity made a fair and impartial jury impossible. On May 5, 1965, the 6th U. S. Circuit Court of Appeals reversed Weinman but let Sheppard stay at liberty pending his appeal to the Supreme Court.

Sheppard was awaiting an early parole when released.

Justice Tom C. Clarke spoke for the Supreme Court. Justice Hugo L. Black dissented but wrote no opinion.

Clark said trial Judge Edward A. Blythin of Cleveland did not "fulfill his duty to protect Sheppard from the inherently prejudicial publicity which saturated the community and to control the disruptive influences in the court room."

Clark said, however, that "reversals are but palliatives."

"The cure," he said, "lies in those remedial measures that will prevent the prejudices at its inception. The courts must take such steps by rule and regulation that will protect their processes from prejudicial outside interferences."

"Neither prosecutors, counsel for defense, the accused, witnesses, court staff nor enforcement officers coming under the jurisdiction of the court should be permitted to frustrate its function."

"Collaboration between counsel and the press as to information affecting the fairness of a criminal trial is not only subject to regulation, but is highly censurable and worthy of disciplinary measures."

## 3 Injured In Gas Explosion

and Robert Melvin, 30, R. R. 8, Columbus, were in Methodist Hospital and Winfrey Deckard, 46, was in Veterans Hospital.

Plant officials said they suffered second and third degree burns on their faces, arms and legs when gas exploded in a room below ground level. The gas apparently was touched off by a cigarette, officials said.

Plant officials said the three were hooking the building's pipes into the city water system because of a breakdown in the plant's water operation.

The explosion was not believed connected with the work being done. The gas apparently seeped into the building underground and was believed to be either natural or sewer gas.

## Secy. Rusk To Visit In Bonn

BONN UPI — Secretary of State Dean Rusk will visit Bonn following the NATO ministerial meeting in Brussels and will meet West German leaders, it was announced Monday.

The American Embassy in Bonn said Rusk will arrive Thursday morning at Cologne's Wahn Airport where Foreign Minister Gerhard Schroeder will greet him.

After brief meetings with Chancellor Ludwig Erhard and President Heinrich Lübke, Rusk and Mrs. Rusk were scheduled to lunch with Schroeder.

Rusk was to leave by air for the United States later in the day.

## Unemployment Rises In U.S.

WASHINGTON UPI — The nation's unemployment rate rose three-tenths of 1 per cent in May, the Labor Department reported today.

The increase in the number of jobless — which occurred mostly among women and students looking for summer work — boosted the adjusted unemployment rate to 4 per cent from 3.7 per cent in April.

Arthur Ross, commissioner of labor statistics, said the figures indicated that "the rate of economic growth decelerated in April and May."

But Ross said he had "every reason to feel... that the overall movement is still upward and that the unemployment rate will resume its decline later in the year."

## Another Victory Is Scored By Paratroopers

SAIGON UPI—Paratroopers of the U. S. 101st "Screaming Eagle" Airborne Division pounced on a reinforced company of North Vietnamese regulars in the central highlands today and killed 77 of them in one of the largest recent battles of the war.

The fighting erupted in the pre-dawn darkness of a high plateau in central Kontum Province about 300 miles north of Saigon. It was the first major action of the 101st's four-day-old "Operation Hawthorne."

American strike planes dropping bombs and firing rockets and cannons roared in to soften up the Communists with 64 sorties and heavy artillery boomed support for the attack. U. S. casualties were reported light.

A military spokesman said today U. S. pilots added 86 or more guerrillas to the death toll in strikes against Communist positions in South Vietnam.

U. S. jets returned to the Communist North in 55 bombing

missions which plastered supply routes, storage centers and water traffic. Most of the raids were concentrated in the southern panhandle through which many supplies are smuggled to the South.

## Two Nabbed In Navy Pistol Heist Episode

INDIANAPOLIS UPI—Two men were arrested Sunday and charged in the theft of 50 automatic pistols from a U.S. Navy shipment to Viet Nam. The guns were recovered.

Held on preliminary charges of violating the offenses against property act were George C. Barr, 42, a forklift operator for an air freight service at Weir Cook Municipal Airport, and Henry L. Muncy, Jr., 23, both of Indianapolis.

The .45 caliber Remingtons were taken from a shipment at the airport awaiting transportation to San Diego, Calif.,

on the second leg of a trip to Viet Nam. The shipment originated at the U.S. Naval Ammunition Depot at Crane.

Recovery of the guns and arrest of the men came about because Jesse E. Kirk, Jr., 47, saw a car pull into the driveway of a vacant house near his home and suspected it was a group of teenagers planning a Saturday night party. Kirk called police.

When officers arrived, they found a car later identified as Barr's with six stolen guns under the front seat. A crate containing 43 more weapons was found in the car trunk.

## Wives Overjoyed By Safe Landing

SEABROOK, Tex. UPI—Mrs. Thomas Stafford almost jumped up and down Monday when Gemini 9 safely splashed down in the Atlantic. Cheering from the Eugene Cernan home could be heard outside in the street.

"I was screaming so, I really didn't know what I said when the capsule hit the water," she told reporters later. "It's splashdown was the loveliest part of the day... Oh, it was indescribable."

Mrs. Stafford said the last time she saw her husband was two weeks ago and he was "very calm," probably because of his experience with Gemini 6. She expected to see him again this weekend.

The Stafford children—Dionne, 11, and Karin, 8—played with batman and baseball cards while their father was coming down in the ocean. Mrs. Stafford said space flights are "old hat" to her children. But Karin admitted today's splashdown was "pretty exciting."

The Cernans and Staffords, with visiting wives of other astronauts, were grouped close to TV sets for the splashdown.

Several hours later, on the basis of information found on papers in the car, police arrested Barr and Muncy at another address. Later, in a search of the vacant house, sheriff's deputies and FBI agents found a crate containing a .50-caliber machine-gun mount.

## Pope's 'Inner Cabinet' Meets

VATICAN CITY UPI—Pope Paul's "inner cabinet" on birth control met to begin drafting recommendations for possible changes in the church's ban on use of oral pills and other contraceptive devices. The group hopes to have its recommendations ready by the end of June.

The meeting, the first since the pope appointed a 16-prelate group to head up his larger commission on birth control March 7, was expected to last three or four days.

The commission, headed by Alfredo Cardinal Ottaviani, a 75-year-old conservative churchman, is studying the Roman Catholic Church's ban on all artificial forms of birth control.

## Protest Alleged Police Slaying Of Student

## Students Riot In Panama City

PANAMA CITY, R. P. UPI—Hundreds of students rioted in downtown Panama and nearby Colon Monday protesting alleged police slaying of a classmate just back from Moscow. First reports said at least three persons were killed and scores wounded.

Students set the post office on fire and kept firemen away while it burned. They also attacked and sacked the National Lottery Building and rushed the mayor's office, forcing its hasty evacuation.

An estimated 1,000 students fought police in the city's main streets, turned over and burned cars and threw stones and garbage.

National Guardsmen charged the students repeatedly in an effort to drive them off the streets and a heavy pall of tear gas lay over the center of the city.

Guard reinforcements, meanwhile, were rushed to Colon, 15 miles across the isthmus from Panama, to quell similar savage outbreaks.

In Colon, high school students attacked the local intelligence headquarters (DENI), throwing stones and loudly accusing police of murdering Juan Navas Pajaro, 20, whose body was found by the roadside outside of Colon last Wednesday, two days after he had returned from a nine-month visit to Moscow. Student leaders said the DENI killed him because of his leftist political leanings.

One student was reported shot to death in Colon and several others wounded.

## Jackie, Children Relax In Hawaii

HONOLULU UPI—Mrs. John F. Kennedy, widow of the President, has settled into a rented beachfront home for a month-long "real rest in Hawaii—almost out of the 20th century for a little while."

Mrs. Kennedy arrived here Sunday with her daughter, Caroline, 9, and son John Jr., 5. Also accompanying her were her former brother-in-law, actor Peter Lawford, Lawford's two children, a Secret Service agent and a nurse.

"I want to enjoy the sun, to spend a lot of time with the children, to read—and just generally to relax," Mrs. Kennedy told Honolulu Advertiser Managing Editor Buck Buckwach who was aboard the plane during the 11-hour 27-minute flight from New York.

"I've been assured Hawaii is the perfect place for that, and I'm hoping it will be."

## Crack Passenger Train Derailed

CARROLL, Iowa UPI—The Union Pacific's City of Los Angeles train derailed Monday, shaking up more than 100 passengers and injuring 23.

The injured were taken to St. Anthony's Hospital where a spokesman said none was seriously hurt.

One of the five diesel units pulling the 19-car train tipped on its side when it left the rails, but all other locomotives and cars remained upright, railroad officials said.

The train, carrying 139 passengers, was speeding eastward toward its Chicago terminal, about 80 miles east of Omaha, Neb., when it jumped the tracks. The Union Pacific uses Milwaukee Road tracks from Omaha to Chicago.

## Astronauts To Report In Detail

CAPE KENNEDY UPI—Amid the triumphs and disappointments of the three-day Gemini 9 mission, astronaut Thomas Stafford and Eugene Cernan "learned a lot." Today they tell space officials about it in detail.

The "learned a lot" evaluation came from command pilot Stafford after he and Cernan scored a bullseye splashdown in the Atlantic that was witnessed by millions of television viewers.

## Woman Kidnaped She Tells Police

WABASH, UPI—A woman told police she was kidnaped Monday at South Bend and forced to drive at knife-point to Wabash.

Janet Logan, 22, South Bend, told authorities here she attended a Sunday night party in Michigan with Nick St. John, and when they returned to her apartment, he pulled a knife and forced her to drive him here.

A Wabash police car pulled alongside the Logan car in the city park. The woman told the officers "she wanted to make a phone call," but did not at that time say she had been kidnaped.

She accompanied officers to the police station where she told of the kidnaping.

St. John was gone when police went back to the car in the park, but officers found a knife with a long blade on the ground near the car.

Police said St. John was an escapee from the Norman Beaty State Hospital at Westville.

## SPUTTERINGS

By Walter L. Johns, Central Press Sports Editor

TO SAY that George Scott and Rick Reichardt are playing the "Flip" side of the record is putting it mildly. The two young, powerful rookies in the American League are stroking their way to a new A. L. rookie home run mark still held by Al (Flip) Rosen of the Indians, set in 1950.

Flip Rosen, now a successful stock broker in Cleveland, smashed 37 home runs in the 1950 season, his first full year with the Tribe, that set a rookie home run mark for the junior circuit and also won him homer honors in his league for the year. The N. L. mark is 38, held jointly by Wally Berger of the 1930 Braves and Frank Robinson, then with the Reds, in 1956.

At the moment, Scott, the Red Sox infielder, and Reichardt, the \$175,000 bonus beauty outfielder of the California Angels, are neck and neck in leading the pack, having hit their 12th homer of the year by their 42nd game. And, with

George Scott Rick Reichardt Al Rosen

a 162-game season their chances appear mighty bright.

REICHARDT, who is 23, is a big guy weighing 215 and standing 6'3" tall and was perhaps the most-sought-after youngster in baseball history when he was starring at the University of Wisconsin.

He had his first pro experience with Quad Cities in 1964 and last year was at Seattle where he played in 131 games and hit just 13 homers.

THE STORY of Scott is one of the features of the 1966 season. Another powerful young man—he's 6'2" tall and weighs 217—was not figured in the Red Sox plans this year at first but his booming bat brought him attention. He came up from Pittsfield in the Eastern League where he led the loop with 25 homers.

The Sox were going with Joe Foy at third for Foy was their outstanding prospect. But Scott ousted Foy from the spot and then was moved over to first by manager Billy Herman.

BOTH REICHARDT and Scott, particularly Scott, already have captured the imagination of the fans with their power and tape measure jobs.

Scott blasted one in Detroit's Tiger Stadium that narrowly missed clearing the roof in left field. He hit one in the top deck at Yankee Stadium that almost duplicated one Jimmy Fox hit there way back in 1932.

Sam Mele, manager of the Twins, recently was talking about Scott. "That fellow is amazing," he said. "He hit everything we threw him. He's an aggressive hitter. He attacks the ball."

Reichardt has been helped by manager Bill Rigney and batting coach Joe Gordon. They made him stand virtually on top of the plate because he was missing outside pitches. It has worked, even though he has been hit by the pitcher a half-dozen times and probably will set a new record of 40 or more if it continues.

## Richie Allen Slams Three Hits For Phillies' Victory

By JOE GERGEN

Richie Allen, who frequently works out with a welterweight, has been working over opposing National League pitchers with the force of a heavyweight champion.

There's nothing strange about that, of course, because Allen is a heavyweight (a solid 185 pounds) and is ranked right at the top of his division, which happens to be N. L. batters.

The Philadelphia Phillies' strong boy is a good friend and companion of welterweight Stanley (Kitten) Hayward, a successful local boy who occasionally has flirted with world ratings. Richie isn't quite as sharp with his fists as Hayward, but with a bat he's dynamite.

The 24-year-old Allen, back in the lineup for only 1½ weeks after missing a month's action with a dislocated shoulder, slammed a homer, double and single Monday night to lead the Phillies to a 6-2 victory over the league-leading San Francisco Giants and a 3-1 split decision in their four-game series.

Allen's performance lifted him into first place in the senior circuit with a .347 batting average and solidified Philadelphia's hold on fourth place in the N. L., 3½ games behind the Giants.

The contest was the only one played in the N. L. Washington ended a scoring game with a 5-3 victory over the Baltimore Orioles and Chicago clipped the California Angels 5-1 in the only American League games.

Allen, who hit his eighth home run of the season and fourth in the last six games in the fourth inning to give the Phillies a 2-1 lead, personally kayoed San Francisco starter Bob Bolin in the fifth with a

run-scoring double which capped a two-run tie-breaking rally. His single in the seventh set up Philadelphia's final run.

Although his throwing arm is still in such bad shape that manager Gene Mauch has been forced to play him in left field instead of third base, Allen is hitting .333 since returning to the lineup and has slammed five home runs. The team has won 10 and lost three since his return after floundering around the .500 mark for the first month of the season.

Rick Wise, a 20-year-old righthander, pitched his first major league complete game and struck out eight Giants for his initial triumph of the year. He allowed eight hits and was in control throughout the game. Tony Taylor also homered for the Phillies and Johnny Callison drove in a pair of runs, with a double and single.

The Senators, who had scored only one run in their last four games, broke loose as Frank Howard and Eddie Brinkman crashed home runs. Howard's was a three-run blast in the third and Brinkman's solo shot capped the Washington scoring. Phil Ortega checked the Orioles on five hits, two of them homers by Frank Robinson, to post his third straight victory and fifth overall.

Rookie Lee Elia slammed his first major league homer and Bill Skowron also hit one out of the park to supply the punch for the White Sox, who executed four double plays to bail out starter Juan Pizarro. Dennis Higgins preserved Pizarro's fifth win in six decisions with four innings of hitless relief.

## Hoosiers Qualify For U. S. Open

By United Press International

Five Hoosiers qualified Monday for the U. S. Open Golf championship, led by Indianapolis amateur Ed Tutwiler and pro Don Byrd of Syracuse.

Tutwiler, former runnerup for the National Amateur crown, posted a 144 at Cincinnati, one shot behind medalist Bob Zimmerman, a pro from Dayton, Ohio.

Pro Don Essig and collegian Wally Armstrong, both also of Indianapolis, joined Tutwiler as Cincinnati qualifiers. Essig carded 145 while Armstrong, of the University of Florida, had 146.

Indianapolis pro Dick Marshall missed the cut at Cincinnati with 151.

Byrd also had a 144 at Lake Forest, Ill., while Sam Carmichael, formerly of Martinsville, trailed him by one stroke.

The open is scheduled for San Francisco June 16-19.

## Foyt Moved To Hometown Hospital

WEST ALLIES, Wis. UPI — Race driver, A. P. Foyt, burned in a Saturday crash, was transferred from West Allies Memorial Hospital today to a hospital in his hometown of Houston, Tex.

He is listed in good condition after suffering second and third degree burns on his hands, face and neck during practice last Saturday for a race at the Wisconsin state fair park.

"There is a very optimistic outlook as to the future function of his hands," a hospital spokesman said.

Foyt said he put his hands on burning fuel on the car to pull himself out of the cockpit. The car had slammed into a wall.

Foyt, the only driver injured in a 16-car pileup on the first lap of the Indianapolis 500-mile race on Memorial Day, indicated he plans to race again.

## Dressen Recovers

DETROIT UPI — A slimmer down Charlie Dressen left a Detroit hospital after spending three weeks recuperating from his second heart attack in 14 months.

The Detroit Tiger manager, looking drawn and pale, will be under the care of a nurse round-the-clock at a downtown Detroit hotel for an indefinite period.

Dressen, 67, slimmer to 150 pounds, 10 pounds below his normal weight, and has been placed on a salt free diet. Chili, his favorite food, for which he has his own recipe, is out of his diet.

He went into the hospital after having chest pains May 16. Dressen was sidelined for 12 weeks during the early part of the 1965 campaign with a heart attack.

Bob Swift has replaced Dressen on the field and Tiger officials have not made any decision on Dressen's future.

## Lem Trotter Dies

INDIANAPOLIS UPI — Lem H. Trotter, 96, the real estate man who acquired the site on which the Indianapolis Motor Speedway was built in 1908, died Monday in a clinic here.

Trotter acquired a 320-acre site for Carl Fisher, James Allison, Frank Wheeler and A. C. Newby when they decided to build a racing course. He bought the land for \$200 an acre.

## Brown Withdraws

HAMILTON, N.Y. UPI — Notre Dame's Bill Brown was the only casualty among seeded players in Monday's first round of the Eastern Intercollegiate tennis tourney, but it was illness that felled him rather than a court opponent.

Brown withdrew when he became ill.

Meanwhile, Pedro Rosello of Notre Dame and Puerto Rico won his first match by default while another Irish player, fifth-seeded Jasjit Singh, was scheduled to play his first match today.

## Indians Win

INDIANAPOLIS UPI — Dick

Kenworthy's ninth-inning single drove in Len Johnston with the winning run Monday night as the Indianapolis Indians defeated the Hawaii Islanders 5-4 in Pacific Coast League baseball.

Kenworthy's hit came on the second pitch from Hawaii reliever Carlos Medrano.

Marv Staehle opened the inning with a walk, Johnston bunted and was safe when Dave Hirtz fumbled the ball. Jim Hicks then bunted, forcing Staehle at third and setting up Kenworthy's heroics.

The Indians tied the contest with a run in the eighth after the Islanders took the lead with a run in their half of the eighth.

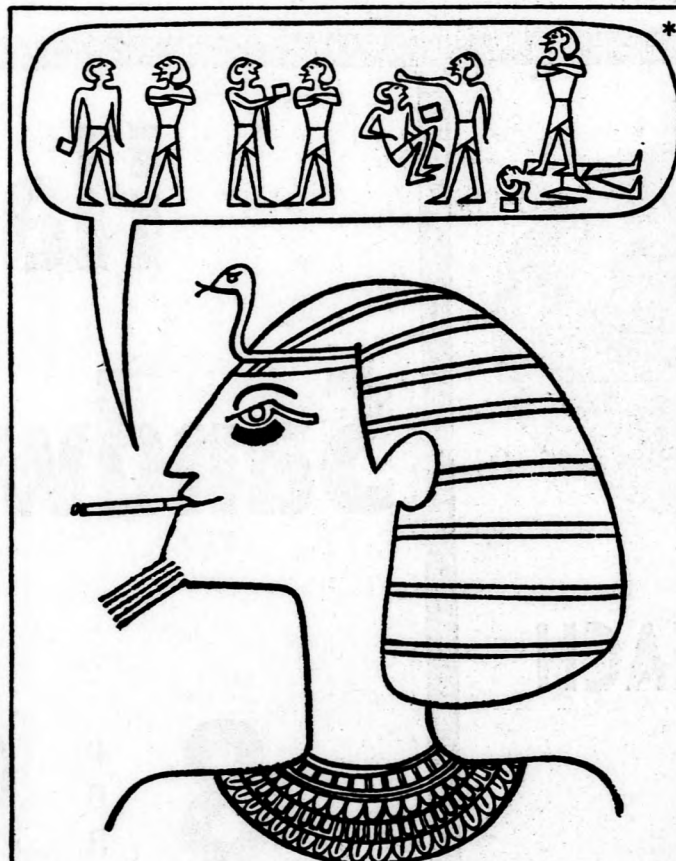

Reliever Ron Willis got the win for the Indians. He was the fourth Tribe hurler. Hawaii used three pitchers.

## Light Turnout In South Dakota

PIERRE, S. D. UPI — A light turnout was expected today in a South Dakota Republican primary in which Sen. Karl Mundt was faced with his first party opposition since his election to the senate 18 years ago.

Mundt showed little concern with the challenge of Richard Murphy a former member of the John Birch Society, and has brushed off Murphy's attempt to label him as a liberal.

Murphy, 36, said he quit the John Birch Society in "disillusionment" because he was ordered to pull out of the senatorial race by society founder Robert Welch. He has campaigned against Great Society programs.

## Signal Hearing Is Continued

INDIANAPOLIS UPI — A hearing on a petition to require automatic railroad crossing signals near a new Miami County school was continued Monday until July 5 after a frustrating afternoon.

The hearing is on a petition by the Miami County Commissioners to require the Pennsylvania Railroad to establish signals at a point where the railroad crosses two roads heavily used by buses and other traffic going to and from Maconaquah School.

Public Service Commissioner Phillip Bayt presided at the hearing in the emergency absence of hearing examiner Robert Staton, to whom the case originally was assigned. Only two witnesses were heard and much of the time was devoted to a legal effort to establish facts concerning the locale.

Ray Geyer, superintendent of Maconaquah, told of the need for crossing protection in order to avoid a future tragedy. He said from 10 to 15 buses cross the tracks four times a day during regular school months and summer classes also are scheduled.

Geyer said the new school serves Bunker Hill Air Force Base families and about half of the high school students are children of servicemen. An Air Force officer was among the persons waiting to testify.

A. L. Hartman, Indiana State Highway Department engineer, testified about the location of the railroad crossing.

Attorneys for the county commissioners sought to obtain a field hearing in the county whenever the case is resumed. However, Bayt took this motion under advisement.

## Paroled To Mother

NEWARK, N.J. UPI — Miss

Viola Smith, 63, was paroled in the custody of her 82-year-old mother, Mrs. Lillie Branch, Monday after being charged with pushing Arthur Royal, 44, out of a second-story window.

Miss Smith, a 4 foot 5, 71-pound spinster, claimed Royal made improper advances at the boarding house where they live. Royal was hospitalized with a broken right hip.

## Committee Hears Attorney General

WASHINGTON UPI—Atty.  
Gen. Nicholas Katzenbach told  
Congress Monday there is no  
reason for putting off action  
beyond this session on Presi-  
dent Johnson's new civil rights  
bill, including the controversial  
open-housing proposal.

Testifying at the opening of  
Senate hearings on the five-part  
package, Katzenbach again  
took issue with allegations by  
southerners that much of the  
bill—particularly the housing  
section—is unconstitutional and  
that the whole thing needs be  
put off until later.

"I have no doubt that it is  
constitutional," he said after  
Chairman Sam J. Ervin, D-  
N. C., of a Senate judiciary  
subcommittee, led off the hear-  
ings with an assault on the  
measure.

PARIS UPI—French troops  
Monday held maneuvers in the  
foothills of the Alps to test  
their ability to operate on their  
own. France is withdrawing its  
forces from integrated NATO  
command July 1.

President Charles de Gaulle  
will fly to the Alps region near  
Grenoble Tuesday to watch the  
final phase of the war games in  
the company of top French  
military authorities.

The war games will be De  
Gaulle's first high-level meeting  
with French army authorities  
since he announced in March  
he was taking France out of  
integrated Allied commands.

De Gaulle leaves Paris in the  
presidential Caravelle at dawn  
for Lyons. Then, aboard a heli-  
copter, he will fly over the war  
games area where several  
thousand blue French troops  
are trying to stem red enemy  
forces attempting to cross Al-  
pin passes into the Rhone River  
area.

An estimated 7,000 men, 1,100  
vehicles, 100 planes and helicop-  
ters are taking part in the four-  
day games which started Sat-  
urday.

## Women Figure Highly As Heads Of The Family

By ROBERTA ROESCH

Dear Roberta Roesch:  
Is it true that women head  
one-tenth of all the families in  
this country? I am sure I heard  
this on the radio but the figure  
seems high to me, even with  
so many women working.

Mrs. P. C.

**She Heard It Right**  
Dear Mrs. P. C.:

The statement that you heard  
is correct. It is borne out sta-  
tistically by the Women's Bu-  
reau of the U. S. Department  
of Labor, since figures show  
that at the latest available  
count, there were 47,835,000  
families in the United States.  
Of these 5,006,000 or 10.5 were  
headed by a woman.

Dear Roberta Roesch:  
I read your very encouraging  
column about a housewife who  
started a typing and stenog-  
raphy service in her home by con-  
tacting local business and pro-  
fessional people.

I have an A.A. (associate in  
arts degree) in business and am  
qualified to do this. But I would  
like to know two things before  
I approach potential clients.

(1) Should I phrase my letters  
to them with an advertising  
pitch or a personal touch? (2)  
Should I include a complete run-  
down of my education?

Mrs. C. T.

Dear Mrs. C. T.:

In answer to your first ques-  
tion, write a good promotion  
letter with plenty of salesman-  
ship. But in telling prospective  
clients how you can fill their  
needs, be sure the letter comes  
alive with a personal approach  
that gives it personality.

**Library Can Help**  
At the same time, make cer-  
tain it shows off your typing  
and letter-writing ability. Your  
public library will have some  
books that can help you.

In answer to your second  
question, include only the points  
about your education and back-  
ground that pertain to your  
business service. These should  
include, in brief form, your  
typing and shorthand speed; a  
list of the jobs and services you  
can perform; any special train-  
ing you have had; and a run-  
down of your past working ex-  
perience. Submit samples of  
your work. Also include recom-  
mendations from former em-  
ployers.

Dear Roberta Roesch:  
I am a widow of 61, and I

of being the extra wheel in the  
social life my husband and I  
used to share.

Where can I find job oppor-  
tunities at my age? I have  
never worked.

Mrs. A. J.

**Possibilities Listed**  
I admire your forthright ap-  
proach to your problem. Women  
your age can and do find jobs  
as sales clerks, office clerks,  
and receptionists in small firms  
that don't have pension plans.  
They can also find jobs with  
families who need someone to  
help with the children when  
young mothers have to work.

Hot Primary In California

SAN FRANCISCO UPI — Ronald Reagan, the actor-politician, and George Christopher, the dairyman-politician, pitted charm vs. experience today in a struggle for California's Republican gubernatorial nomination.

The primary election in the nation's most populous state also featured Democratic Gov. Edmund G. (Pat) Brown's bid for an unprecedented nomination to seek a third consecutive term. Samuel W. Yorty, maver-

ick mayor of Los Angeles, was Brown's chief opponent in a field of six.

The California primary was viewed as a limited test of President Johnson's Viet Nam policies. The war was a major issue in races for 10 of the state's 38 congressional seats. The non-incumbent "doves" were generally opposing well-entrenched congressmen.

Reagan, 55, was making his first political foray. He was rated the favorite over Christopher, former two-term mayor of San Francisco and a prominent dairyman.

A forecast for gain in Northern California, where Christopher expected his most solid support, dimmed the 57-year-old Greek immigrant's chances of overcoming Reagan's apparent advantage in more populous Southern California.

About 5.1 million of the state's 7.8 million registered voters — a record primary total — were expected to cast ballots, barring a major storm.

Reagan and Christopher wound up their campaigns Monday with fast-paced chartered airliner hops around the state.

At a firecracker-popping rally in San Francisco, Christopher termed polls which showed him badly behind Reagan as "meaningless" in the light of his no-punches-pulled final campaign effort.

"I can't help but feel optimistic, but I'll be chewing my fingernails Tuesday night," Reagan said. "Whatever happens, I know we can win in November."

Negroes Voting In Mississippi

JACKSON, Miss. UPI —Mississippi voters, including almost 100,000 Negroes registered in the past year, go to the polls today in primary elections for five congressional seats and the post held by Democratic Sen. James O. Eastland.

Justice Department election observers were on hand in 14 counties with substantial numbers of Negro voters. But the total Negro vote was expected to have little impact on the outcome of the primaries.

Eastland, 61, a pillar of Senate resistance to civil rights, and other white incumbents and office-seekers were expected to far outdistance six civil rights candidates.

Atty. Gen. Nicholas Katzenbach sent his top racial trouble-shooter, John Doar, to Mississippi to head the forces and warned that the FBI take action against any incidents of violence aimed at Negro voters.

Doar was forced to rush away from his command post, however, to take part in the investigation of the wounding of Negro James Meredith as he walked down a Mississippi highway to encourage Negroes to register to vote.

Eastland, one of the most powerful men in Mississippi politics, was opposed by a political unknown, Meridian cattleman, Charles Masby and by Clifton Whitley of Holly Springs, a Negro backed by the militant Freedom Democratic party.

Two Killed In Morgan County

By United Press International

Two persons were killed Monday in a collision of two cars near Martinsville which raised the Indiana fatality toll for 1966 to at least 617 compared with 567 a year ago.

The victims were identified as Mrs. Esther Naomi Robinson, about 45, Indianapolis, and Delbert Wilcox, 63, R. R. 4, Martinsville. Mrs. Robinson's husband, Raymond, 46, driver of

one car, was injured critically and taken to a Martinsville hospital.

Police said the accident happened on wet blacktop of Indiana 37 about three miles north of Martinsville when Wilcox slipped off the edge of the pavement during a rainstorm and crossed the center line in trying to get back into the roadway.

Almost half of New York City's residents were born abroad or are first-generation Americans.

Viet Cong Hit Helicopter Base

SAIGON UPI — Viet Cong guerrillas sweeping down from the mountains attacked the huge U. S. helicopter base at An Khe for the second time in a month, inflicting "light" casualties on defending U. S. Army forces, a military spokesman disclosed Monday.

The 57 millimeter recoilless rifle attack Sunday night on the massive An Khe base in the Central Highlands did little damage but U. S. military commanders were reported tightening anti-guerrilla security around the jungle field.

The Viet Cong attack hit both the helicopter field—largest in the world—and the steel blanket airstrip of the U. S. 1st Air Cavalry Division's base camp.

But a spokesman said no planes were damaged at the installations 260 miles north of Saigon. It was from the An Khe base that the 1st Air Cavalry mounted "Operation Crazy Horse" that ended Monday, hailed by military spokesmen as one of the Allies' greatest victories of the war.

Three Hoosiers Killed In Crash

HOPKINSVILLE, Ky. UPI—Three Hoosiers were killed and three others injured Monday when a semi-trailer truck went out of control on a curve near Hopkinsville and crashed into two cars.

Two of the victims, Mrs. Lillian M. Sherretz, 38, and her daughter, Patricia, about 15, were from Mount Vernon, Ind. They were passengers in a convertible driven by Merle Sherretz, who was taken to a hospital in Nashville, Tenn., with injuries from the crash.

The third victim was identified as Gerald Fuller, 41, Vincennes, Ind., driver of the other car.

Also injured in the crash were Mrs. Viola Fuller, 48, and her daughter, Judy, 16. Allen Sherretz, 10, was not injured. Police said the Sherretz vehicle was knocked over a 50-foot embankment by the force of the crash, and the car's top and doors were sheared off.

Don't Waste A Trump For A Trump Finesse

By Alfred Sheinwold

The easiest way to take a diamond finesse is to lead a diamond. A more devious way, possible only if diamonds are trumps, is to lead a side suit when you are ready to over-ruff the opponent. This devious way may help you keep one trump for other purposes.

South ruffs the second round of hearts and leads the ace of diamonds, expecting an easy time. West discards a heart, and South must revise his expectations.

South must finesse to draw East's trumps, but he will wind up in the garbage can if he uses

one of dummy's trumps for the finesse.
